

UPDATED MOE KENT FAMILY FIELD HOUSE

Coming in 2024

COMMUNITY SCHOOL
of Naples

NEW LOBBY

With **approximately 75% of our Upper School students participating in athletics annually**, it's clear that sports play a vital role in our school community. The updated lobby will serve as the gateway to our athletic facilities, and will reflect the excellence and pride our student-athletes bring to the field. By renovating this space and adding a new set of athletic offices, as well as additional classrooms upstairs, we aim to create a warm, inviting atmosphere that not only celebrates the achievements of our student-athletes, but also enhances the overall experience for families and fans who come to support them.

The renovated lobby will serve as a hub of excitement and camaraderie, where families and fans can gather before and after games, creating lasting memories. Improved amenities, such as comfortable seating, interactive displays showcasing our students' accomplishments, and a more efficient layout, will make the lobby a welcoming space for all. Additionally, donors who contribute generously to this project will have the opportunity to leave a lasting legacy by having the areas named in their honor. These renovations will not only benefit our athletes and fans, but also enhance the educational experience at Community School of Naples, fostering a deeper connection among students, families, and supporters. Your contribution to this project will support to the holistic development of our students and help us continue to offer a first-class educational and athletic experience for our entire school community.

FOUR NEW TEACHING SPACES

Two New Classrooms

These additional classrooms will provide much-needed space to accommodate a growing student population, reducing overcrowding in existing classrooms. With more capacity, teachers will be able to create a more conducive learning environment, fostering greater engagement and interaction among students. Ultimately, the construction of these classrooms signifies an investment in the quality of education and the overall well-being of every student, ensuring they have the resources and opportunities they need to thrive academically and personally.

Two New Music Centers

Currently, **two thirds of our student body participates in our vibrant music program**, showcasing a remarkable interest and talent in the world of music. However, our current facilities are inadequate, with limited space and subpar acoustics that hinder our students' musical growth. These new music centers will serve as the beating heart of our music program, offering state-of-the-art technology, soundproofing, and spacious areas for individual practice, ensemble rehearsals, and collaborative creativity. They will not only empower our current students to reach their full musical potential, but also attract more aspiring musicians, enriching both our school and community's cultural tapestry. These rooms are an investment in our students' dreams and a commitment to fostering a love for music that will resonate throughout their lives.
